## CENTENNIAL COTTAGES

Is your home away from home

Newly constructed in 2005  
We currently have 5 air conditioned cottages  
that sleep up to 4 people.  
They are individual buildings in a wooded  
setting that offer privacy from your  
neighbors

The living rooms have sofa beds, reading  
lamps, satellite TV and are fully carpeted.

The cottages have kitchens with full size micro-  
wave, stove and refrigerator. They have a pantry  
and plenty of cabinet space for extended stays.  
The kitchens come equipped with all cooking  
and eating utensils.

The bathroom is very spacious and has plenty of  
storage room.

The bedrooms come with queen size or twin size  
beds with King Coil Posture Support mattresses.  
They have reading lamps, full closets and dressers.
